

SCRAP PURCHASE PROGRAM

Since 1989, Encore Wire Corporation has always put our customers first. We continue to look at our resources, our products, and our capabilities to determine how we can bring more value to you.

Our Scrap Purchase Program allows us to minimize our impact on the environment for the betterment of our customers, their families, and the communities in which they live.

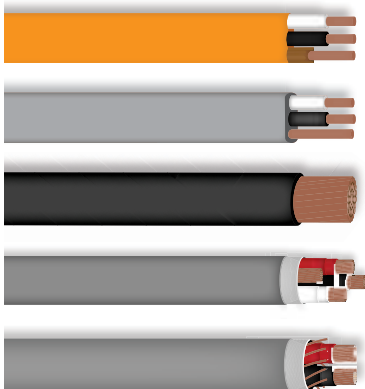

This program not only accepts bare copper but PVC insulated copper too. Our post consumer thermoplastic insulated conductors contain enough recycled materials to qualify contractors for LEED incentives.

Encore is proud to focus on green initiatives such as RoHS, LEED and product recycling.

IT PAYS TO RECYCLE WITH

ENCORE WIRE
CORPORATION

- Ask your sales representative to include some gaylord boxes on your next shipment
- Fill gaylord boxes with copper scrap, insulated or bare
 - Cross-linked (XHHW-2 and USE-2) and Non-Shielded Portable cord must be separated and marked accordingly
 - Scrap must be removed from reels
- Call Encore Wire Purchasing at 1.800.962.9473 ext. 224 to receive a purchase order number
- Send gaylord box back to Encore Wire in McKinney, Texas
 - A numbered bill of lading must accompany each shipment for tracking and payment references
 - Scrap must be shipped freight prepaid
- Payment will be made for the copper recovered, about 45-60 days after receipt of material

PRICING

- Recovered copper price to be quoted on a daily basis representative of the current scrap market
- Encore Wire will provide gaylord boxes on stock orders or job shipments
